TO WHOM IT MAY CONCERN

**Bathrooms 4 U – Mr Nick Burchell**

The above named recently undertook a bathroom renovation under our direction for one of our Clients. The scope of the work was specified as fully as was possible.

When undertaking the work Mr Burchell was attentive with good time keeping and consideration for the owner of the property. His attention to detail was exemplary and the overall quality of his workmanship was excellent.

During the course of the work a number of structural issues to the floor were identified which could not be seen prior to the work commencing. Although the remedial works required were generally outside the scope of his specialisation he dealt with them with great efficiency. His financial control on the project was excellent.

The completed project is a credit to his skills and we have no hesitation in recommending him for similar projects.
